

DOUGH BOSS.

ONLINE & CATERING ORDERING SYSTEM

A representation of the finished product and how it works — from a customer's phone, to the kitchen iPad, to the owner's dashboard. Built for Dough Boss across Bankstown, Revesby & Roselands.

ORDER ONLINE

CATERING

STRIPE PAYMENTS

WHAT THE SYSTEM IS

ONE SYSTEM, THREE EXPERIENCES

Dough Boss runs as a single ordering platform on your own website. Customers order and pay online, the kitchen works orders on an iPad, and you see everything across all three shops — no delivery-app middleman, no commission, your data.

1

CUSTOMERS ORDER

Browse the menu, build a pizza or pick a catering pack, choose pickup or delivery, and pay by card — all in the phone's browser, no app to download.

2

THE KITCHEN RUNS IT

Each order lands on the right shop's iPad board with an alert. Staff accept with one tap, set an ETA, and move it New → Preparing → Ready.

3

YOU STAY IN CONTROL

Payments settle into your Stripe account; sales, top items and customers show on one dashboard; you edit the menu and hours yourself.

\$0 COMMISSION

a flat fee, not a cut of each order

100% YOUR CUSTOMERS

names & orders in your database

3 SHOPS

Dough Boss Bankstown · 0466 xxx xxx

The customer sees their order move through each stage — the same status the kitchen sets on the iPad.

- **One source of truth** — kitchen taps a stage, the customer sees it.
- **Fewer phone calls** — no “is my order ready yet?”
- **SMS add-on** — optional “ready” / “on its way” texts.
- **Receipt & details saved** to your customer list.

ADD-ONS

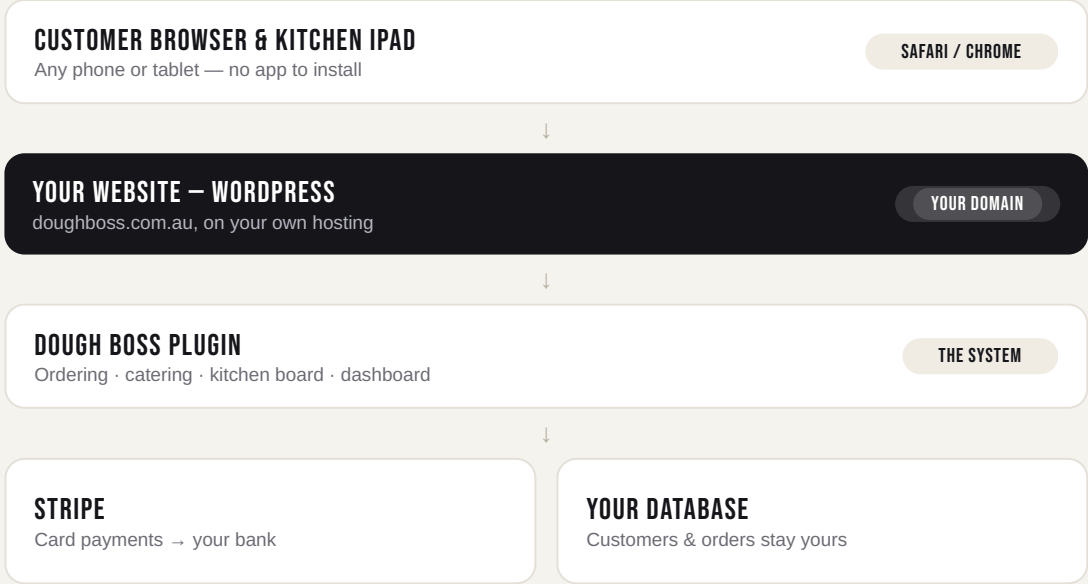

WHEN YOU'RE READY

- + Loyalty rewards — "10th pizza free", tracked
- + SMS notifications — "ready" / "on its way"
- + Scheduled & recurring catering — office accounts
- + Auto-printed kitchen dockets — screen backup
- + QR table ordering — dine-in scan & pay
- + Google review booster — auto review link
- + Email marketing — to your own list

Add-ons slot into the same system — no rebuild, switched on as the business grows.

HOW IT'S BUILT

STANDARD, PROVEN, AND YOURS

- NO LOCK-IN**
 Your domain, your WordPress, your Stripe account and your customer data. The system runs on tools you already own or control.
- RELIABLE BY DESIGN**
 Orders are saved as they arrive, so nothing is lost if a screen is closed or refreshed — and everything is backed up. We maintain and update it for you.
- SECURE PAYMENTS**
 Card details go straight to Stripe (PCI-compliant) and never touch your server — you simply receive the funds.

ROLLOUT

HOW WE GO LIVE

1

SET UP · WEEK 1

Load your menu, branding and shop details; connect Stripe and WordPress; set up the kitchen iPads.

2

TEST · WEEK 2

Run real orders through ordering, checkout, catering and the kitchen board with your team in test mode.

3

GO LIVE

Switch to live payments across all three shops; we stay close through the first busy weekends.

WHAT WE NEED FROM YOU

- Menu — items, sizes, prices
- Shop details & hours (×3)
- Your ABN (GST invoices)
- WordPress access
- Stripe account (we'll help)
- Logo & brand assets (high-res)

THE COMMERCIALS, IN SHORT

Setup ~\$4–5k at cost · \$800/week + 5% of online sales (capped 15%) to run, maintain & support it. Stripe's ~1.7% + 30c per card is separate — a flat, capped fee with no per-order commission.

DOUGH BOSS.

YOUR SYSTEM · YOUR CUSTOMERS · YOUR DATA
