

Dough Boss — Website & Social Pages

Client meeting questions · 23 Jun 2026

This meeting is just about the Dough Boss website and your social pages — the look, the content, the menu we show, locations, getting it live, and your socials. (Ordering, payments, the POS and the Snow Boss side are a separate conversation.)

Where things are right now

- Your live site (doughboss.com.au) is in “Maintenance” mode, so it isn't public. The pages exist but there's no real menu or content loaded yet.
- We've built an interactive demo (the link we shared) to show the direction — About/landing page, a browse-able menu with photos, your three shops with maps, and a clean black-and-white look.
- On social, your SnowBoss Instagram (@snowbosssyd) is confirmed — we still need your Dough Boss handles.

1. What do you want from the site & socials?

- In a sentence — what should the website do for you (look great, show the menu, bring in foot traffic, take orders, get catering enquiries)?
- Who's the main audience (locals, students, office/catering)?
- What's the one thing you most want a visitor to do (see the menu, find a shop, order, call, follow you)?
- Is there a date you'd like the new site live by?
- Who's our main contact and the final decision-maker on your side?

2. The demo — does it feel right?

Heads-up — *this is the main thing to walk through together.*

- Overall — does the look and feel match what you had in mind?
- The About/landing page — does it draw people in, and is the story accurate?
- The menu browsing experience — is this how you want customers to see your food?
- Anything that feels wrong, missing, or “not us”?
- Are you happy for us to build the real site in this direction?

3. Look & feel

Heads-up — *we've already given the demo a black-and-white style.*

- Confirm the black-and-white look is the direction you want.
- Do you have final logo files? Any brand colours or fonts you want kept?
- Are you happy with the fonts in the demo, or do you have preferred ones?
- Any websites or brands whose look you love, that we could take cues from?

4. Pages & structure

- Confirm the pages you want — Home, Menu, Locations, About, Catering, Contact — anything to add or remove?

- Should Snow Boss appear on this website, or be a separate site? (it's a page in the demo right now)
- Do you want to keep the Wholesale and Franchising pages?
- Would you like a specials/news section?

5. The menu (what we show on the site)

Heads-up — *the live site has no menu loaded, so we need the real one to build it.*

- Could you send us the full menu — items, short descriptions and prices? (a simple spreadsheet is perfect)
- Confirm the menu sections: Manoush, Bites, Sweets, Drinks — right and complete?
- Is the “Bites” menu available now, or coming soon?
- Any combos or deals you'd like featured?
- Do the items or prices differ between the three shops?
- Should we show dietary tags (vegan / vegetarian / halal / gluten-free)?

6. Photos & imagery

Heads-up — *for the demo we used some of your real photos plus a few AI-generated ones.*

- Do you have professional photos of the food and shops we can use? Who owns them?
- Are AI-generated images OK as placeholders for launch, or would you prefer a proper photoshoot?
- Can you send your logo files and any other brand graphics?
- Would you like us to create social/marketing graphics for you too?

7. Your story & wording

- Is the “since 2014 / family recipes” story accurate to publish?
- How would you describe the brand's personality in a few words, so the wording sounds like you?
- Do you have any existing copy or a brand guide we should follow?

8. Locations on the site

Heads-up — *please verify the details we have.*

- Confirm the three shops' details to display — address, opening hours, phone:
 - Bankstown — 462 Chapel Rd (Little Saigon Plaza), NSW 2200 · Mon–Fri 7am–2pm · (02) 8764 6783
 - Roselands Centro — Shop MM03, Roselands Dr, NSW 2196 · daily 8am–3pm · 0466 353 133
 - Revesby — 12/25 Selems Parade, NSW 2212 · 7 days 6:30am–2:30pm · (02) 9774 2286
- Are all three open now? Any other shops to add?
- For each shop, do you want pickup and/or delivery shown — and which areas you deliver to?

9. Online ordering (just the high level for now)

- Do you want the website to take orders (pickup/delivery) at launch, or be a menu/brochure site for now with ordering added later?
- If ordering: which shop(s) first, and how would you like to receive the orders?
- (The detailed ordering, payments and POS setup is a separate conversation — we just need the direction here.)

10. Getting it live

Heads-up — *the current site is on an older setup and in Maintenance mode.*

- Are you happy for us to rebuild it properly and take it live?
- Who controls the domain (doughboss.com.au) and the hosting login?
- We'll take a full backup before any changes — OK to proceed?
- Soft launch first for you to review, then public — or straight to public?
- After launch, who updates the site (menu, specials) — you or us?

11. Social media pages

Heads-up — *SnowBoss IG is @snowbosssyd; we still need your Dough Boss handles.*

- Confirm your handles — Instagram, Facebook, TikTok — for Dough Boss.
- Who runs your social right now, and would you like us to help (setup, content, posting)?
- Should the website link to your socials and show your Instagram feed?
- Are your Google Business listings for each shop claimed and up to date (for reviews + Maps)?
- Any launches or campaigns coming up we should design around?
- How often would you like to post, and what kind of content (food, behind-the-scenes, offers)?

12. Access we'll need

Heads-up — *please share securely — not in plain text.*

- WordPress admin + hosting login.
- Domain registrar / DNS access.
- Social accounts (Instagram, Facebook, TikTok) and Google Business Profiles.
- Logo and photo files.

13. What we need from you + next steps

- The real menu — items, descriptions, prices (a spreadsheet).
- Logo files and any photos (or your OK to use AI placeholders / arrange a shoot).
- Confirmed shop details (addresses, hours, phones).
- Your social handles + access, and the go-ahead to rebuild and take the site live (with a backup).
- A target go-live date, and who maintains the site afterwards.

Already agreed (no need to revisit)

- The black-and-white look.
- Halal.
- The three Sydney shops — Bankstown, Roselands Centro, Revesby.
- Keeping the new “Bites” menu alongside manoush and sweets.
- SnowBoss Instagram handle = @snowbosssyd.
